

IS LUCIFER MY PARENTS

Hi I was born into earth on 08/03/82 in Maryland Usa. As a little girl I always felt that this world was incomplete. Something was not right or just missing. I asked a few questions about Jesus like how come a the same color person who treated black people bad is the same color person that is going save us. Being young of course I just went with the flow. A few years ago I started seeking GOD'S KINGDOM which was pointing towards me. It was weird however I looked into my name. The the letters of my name can spell over 50 words including adding the "H" from my last name. The meaning of my name is spelled different so never the exact spelling. So I just look into whats close to it. DEMITRA. Well doing this research it got deep. From my tattoos to the places I live to people around me. Even music and movies HOLLYWOOD especially put the TRUTH in plain sight. I always felt that I am being watched. I am. My phone is tapped also. I have visions and dreams of my life before coming to earth. As I gotton deeper into this rabbit hole more pieces to the puzzle started to connect. Reicarnation is real. Orisis Jesus and Shaka Zulu are 3 kings in one. Hes in Baltimore Md. Sean Carter has a major part in this too. I have no money when everything in this world is mines. I just want some one who knows about secret Tamar society to connect me. Help me truly put these last puzzle pieces together so all my children can be free. Thank you
